

CSS Grid

DEADLINE: 11/06/2022

FOLDER STRUCTURE

FL19_HW2/* * - required

- └─ task/
- └─ homework/*
 - └─ css/*
 - └─ styles.css *
 - └─ img/*
 - └─ all images in this folder *
- └─ index.html *

TASK

1) In this homework you should create the same page as shown in the picture (not pixel perfect) - task/design/design.png or task/design/design.pdf by using **Grid** as much, as possible. All text you can find in file content.txt.

2) In this homework used the font and color below:

Fonts:

For all text: "Atlas Grotesk Web", sans-serif

For gold text: Larsseit-Bold, sans-serif

Colors:

Header and footer background: #f5f5f5

Shadow: gray

Header and footer first element: #7293aa

Main heading and button: #009697

Gold: #a5823d

Light gold: #e7a729

Border: lightgray

Footer border: #dad9d7

Unicode character: 👁 ● ← → ★ ©

3) Add a shadow on hover on the header menu (Figure 1)

Figure 1. Header menu

4) Add hover action on all gold link using Light gold color (Figure 2)

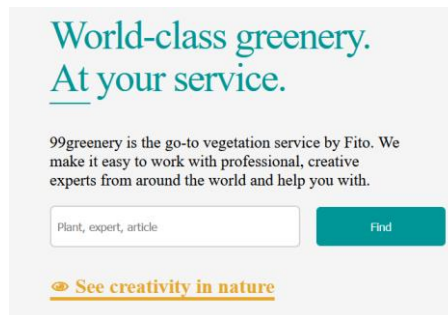

Figure 2. Gold link hover

5) The circles should be darker on hover (Figure 3)

Figure 3. Dark circle

6) In this section arrow buttons and "Get Started" should be transparent to 60% on hover (Figure 4)

Figure 4. Arrow buttons

7) On hover action should appear text (Figure 5)

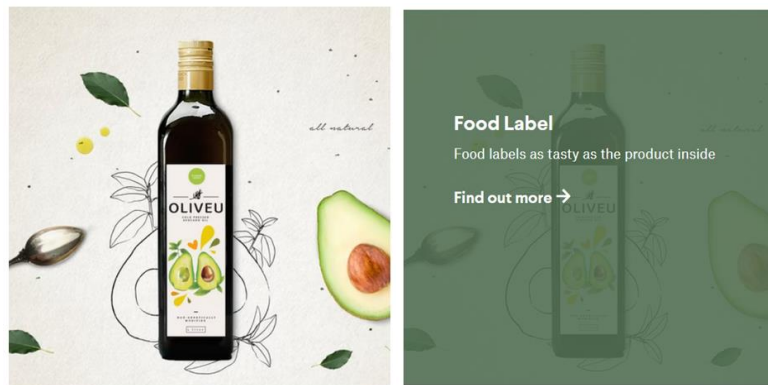

Figure 5. Text

8) On hover action stars should be light gold (Figure 6)

Folks think we're pretty rad. We're rated 4.8/5 from 37,496 [customer reviews](#).

Figure 6. Change color

9) On hover action heading card should be change color (Figure 7)

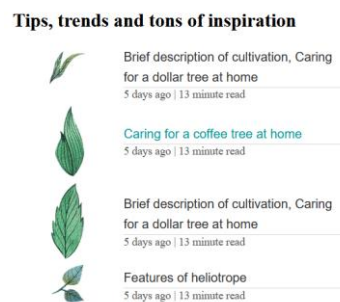

Figure 7. Change color

10) The footer menu should change color on hover action (Figure 8)

RESTRICTIONS

- Usage of **JavaScript** is forbidden;
- Adding **task/** and **example/** folders is forbidden. Do not push it to repository (only homework/ folder should be pushed);
- No requirements for browser support (should work properly in Google Chrome last version).

BEFORE SUBMIT

- Read requirements and compare to your homework result;
- Format the code (remove unnecessary lines of code);
- Make sure your GitLab folder structure meets the required one (without **task** and **examples** folders);
- Fix all issues which was found by w3org Markup Validation Service (<https://validator.w3.org/>) and CSS validator (<https://jigsaw.w3.org/css-validator/>).

SUBMIT

- The **FL19_HW2** folder should be uploaded to GitLab repository “**FL-19**” into **main** branch
